

Mrs Madden's Class News

Friday 27th June 2025

I can't believe there are only three weeks left until the end of the school year – time flies when you're having fun!

This week, we have been learning about addition and subtraction in Maths. Mrs King was very impressed with the 'Year Ones in training', as she helped to cover the class whilst I was on a course. Miss Whittingham was equally impressed with their counting skills and number formation when they made a number jellyfish!

In PE, the children practised jumping in a variety of ways. Miss Emery was very pleased with their listening skills.

In our topic work, we were thinking about the life cycle of a turtle and we explored lots of beautiful shells.

Next week, we will embrace ourselves with mermaids and pirates... shiver me timbers!

Have a lovely weekend!

Mrs Madden 😊
